Diapix Script Version 2
<u>Task - Natural Conversation</u>
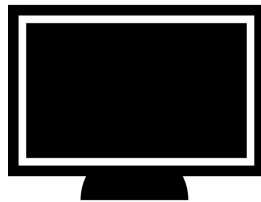

<u>Round 1 (with both minimal pairs)</u>
Both players are viewing a diapix image with the stimuli:

- Writer / rider
- Batter / badder
- Ice / eyes
- Bus / buzz
- Fife / five
- Prize / price
- Metal / medal
- Litre / leader
- Petal / pedal

- Example task begins -

P1: Okay, P2 - I have a few things on my screen…
P2: Yes! I do, too.

Please discuss with your partner: Where is the badder ?

P1: Okay - I have a **badder,** it's on the right hand side, holding some **ice.** Is your **badder** in the same spot?
P2: Oh! I don't have a **badder**…oh wait, yes I do….but it's not holding ice…it's in front of the curry restaurant, behind a **bus.**
P1: Oh…that's a weird spot for a **badder!**

Please discuss with your partner: What colour is the rider?

P2: Do you have a **rider** in your scene?

P1: Yes! It's a **rider** on a scooter, what about you?

P2: I do too, my **rider** is green and beside a blue **batter**…on the left hand side of the picture.

P1: Wait, the **badder** was on the right side, wasn't it?
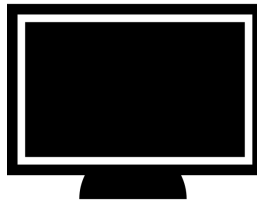

P2: Yes, I mean a **batter**, like in baseball!

P1: Ooh, I see! Okay, I have a **rider**, but my **rider** is in the water and its blue…. It's under the **buzz…**and I think it's carrying a **fife.**

P2: A **five?** Like the number **five?**

P1: No, sorry - like the instrument **fife**, kind of like a flute?

P2: Oh, I understand. I have a **fife** in my picture too, but it's on the sand beside the **bus.** Okay so we know we each have a **bus** and a **rider**, but some of the other items are different?

P1: I guess so!

Please discuss with your partner: Who is holding the ice ?

P2: Oh. I have a some **ice** in a boat…with something **metal.**

P1: My **ice** is held by the **badder**…and it's beside **metal,** too!

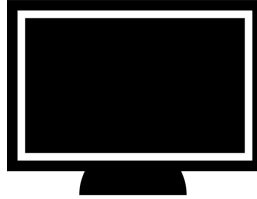

Please discuss with your partner: Where is the litre ?

P1: In my picture, the **litre** is in front of the convenience store.

P2: Hmm, I have **leader** but they're on top of the curry restaurant?

P1: I meant **litre,** like a container that holds a drink?

P2: Oh, sorry! Yes, I have a **litre**, it's outside of the cafe.

Do you see a:

Vehicle ?

Number ?

Building ?

Instrument ?

P1: Okay - I have two vehicles, I think. I see a boat and a **bus**…oh and a **rider** on a scooter! What about you?

P2: Hmm yes I have a **bus**, a boat, and a **rider,** too!

P1: Great okay - do you see any numbers?

P2: Yes, I have the number **five** on the cafe. Do you?

P1: Yes, I have a **five,** but it's on the convenience store.

P2: I have two small buildings, one looks like a cafe, and one is a curry restaurant with a **leader** on top.

P1: Oh! I only have a small convenience store, but there's both a **litre** and a **leader** in front of it. I also have one instrument, a **fife** on the back of the **rider.**

P2: Yes, I have a **fife** on the same…but also a **pedal** in the sky haha - does that count as an instrument?

P1: Oh, I have a **pedal** too, but its on the back of a kayak in the water.
